

# ALWAYS-ADVANCING NUTRITION

for Pets with Adverse Food Reactions

## BUILT WITH PURIFIED AMINO ACIDS

Formulated with purified amino acids to support dermatological and gastrointestinal health in dogs with adverse food reactions

Low-allergen carbohydrate sources to help minimize the risk of an allergic reaction

Highly digestible to promote optimal nutrient absorption

Limited fat to aid digestion for dogs with compromised gastrointestinal tracts

## THE POWER OF HYDROLYZED PROTEIN WITH FLAVOR AND TEXTURE OPTIONS

Formulas contain hydrolyzed protein sources and have a formula average molecular weight of 12,000 daltons or less to reduce the risk of allergic reaction

Single low-allergen carbohydrate source (corn starch in dry, pea starch in wet) to help minimize the risk of an allergic reaction

Highly digestible to promote optimal nutrient absorption (dry)

Contains medium-chain triglycerides (16.5-27% of fat in Vegetarian, 12.5-21.0% of fat in Chicken Flavor, and 14.5-23.4% of fat in Salmon Flavor)

## NUTRITIONALLY MANAGE CATS WITH FOOD ALLERGIES

Contains hydrolyzed protein sources and has a formula average molecular weight of 12,269 daltons to reduce the risk of allergic reaction

Single low-allergen carbohydrate source (rice starch) to help minimize the risk of an allergic reaction

Highly digestible formula to promote optimal nutrient absorption

### St/Ox Defense:

This diet promotes a urinary environment unfavorable to the development of both struvite and calcium oxalate crystals

## A TREAT THAT DOGS CAN ENJOY—AND SAFELY DIGEST

Formulated for dogs with food sensitivities and sensitive GI tracts

Low molecular weight

Easily digested

Single hydrolyzed protein source
